

Srinidhi N S

☎ +91 80736 92802 | ✉ nssrinidhi72884@gmail.com | 🔗 LinkedIn | 🐙 GitHub | 🌐 Portfolio | 📍 Bengaluru, India

Summary

Hands-on experience across software development, AI, data, and backend systems, with projects spanning machine learning, API development, data pipelines, databases, and application development. Experienced in taking ideas from exploration and experimentation through implementation, working with different technologies and approaches to solve practical technical problems. Comfortable moving across domains, learning unfamiliar tools when required, and applying a broad technical foundation to build reliable, useful software.

Education

M.S. Ramaiah Institute of Technology	2023 – 2026
<i>B.E. in Artificial Intelligence & Data Science</i>	<i>GPA: 7.8</i>
Acharya Patashala Polytechnic	2020 – 2023
<i>Diploma in Computer Science Engineering</i>	<i>CGPA: 9.14</i>

Technical Skills

Languages:	Python, Java, JavaScript, TypeScript, SQL, HTML5, CSS3
Frontend & Frameworks:	React.js, Next.js, Tailwind CSS, Streamlit, Vite
Backend & APIs:	FastAPI, Flask, Node.js, RESTful APIs, WebSockets, WebRTC
Data Analytics:	Pandas, NumPy, Scikit-learn, Data Cleaning, EDA, Visualization, Statistical Analysis, ETL
AI & Machine Learning:	Supervised/Unsupervised Learning, SVM, K-Means, NLP, Computer Vision, TensorFlow, PyTorch
Generative AI:	LLMs, RAG, Prompt Engineering, AI Agents, Embeddings, Vector Databases
Databases & Storage:	MongoDB, PostgreSQL, MySQL, SQL
DevOps & Tools:	Git, GitHub, Docker, CI/CD, Vercel, Jupyter, VS Code
Libraries & Visualization:	Matplotlib, Seaborn, Plotly, Joblib, MediaPipe
Software & Engineering:	OOP, Data Structures & Algorithms, API Development, SDLC, Auth (JWT/OAuth)

Experience

Product Operations Lead Intern	May 2026 – Sep 2026
<i>Namaah ATLAS</i>	<i>Bengaluru, India (Remote)</i>
- Established foundational product-operations workflows and designed cross-functional team structures (Frontend, AI Pipeline, Backend), leading technical onboarding and architectural knowledge transfer for new engineers. - Created a centralized operational documentation suite defining core product architecture, subscription ecosystems, credit lifecycle monetization, and strict GitHub engineering collaboration practices. - Orchestrated cross-functional execution across product and technical domains, actively managing dependencies, risk mitigation, and operational readiness to successfully drive the platform’s Alpha release.	
Technical Intern (Home Automation & IoT)	Aug 2023 – Sep 2023
<i>Schneider Electric</i>	<i>Bengaluru, India</i>
- Analyzed device telemetry from 50+ embedded IoT sensors, identifying 3 hardware failure patterns to improve system reliability using Python data tools and SQL. - Developed automated data extraction scripts that processed 5,000+ daily log entries, effectively eliminating manual diagnostic bottlenecks for the core engineering team.	

Projects

GuardianVoice – Real-Time Scam Detection 🐙 GitHub	Python, Machine Learning, Speech API
- Developed a real-time voice analysis microservice using Python and machine learning to instantly transcribe speech and detect scam patterns for elder protection. - Engineered adaptive risk threshold algorithms and rule-based filters, enabling live audio processing and automated spoken warnings during active phone calls.	
Cloud Microservices – Anomaly Guardian 🐙 GitHub	FastAPI, Docker, PostgreSQL
Engineered a scalable FastAPI microservice secured with 2 JWT/OAuth protocols, processing 500+ events/second to effectively detect critical data anomalies in real-time.	
Agentic AI System – Emotional Syllabus 🐙 GitHub	Python, React.js, LLMs, REST APIs
- Designed a full-stack web application utilizing Python and React.js, handling 1,000+ daily requests through highly dynamic multi-modal content generation pipelines. - Implemented RAG architectures and vector embeddings across 5+ knowledge domains, achieving 90% retrieval accuracy via OpenAI and Claude APIs for end-users.	

Certifications & Achievements

- Earned **SAP Certified Generative AI Developer** 🏆 and **SAP Analytics Cloud Data Analyst** 🏆 credentials, validating enterprise expertise in LLMs and data modeling.
- Achieved **UiPath Automation Developer Associate** 🏆 certification, proving practical skills in building scalable robotic process automation (RPA) workflows.
- Led event coordination as Core Committee Member for the Wolfpack Disciplinary Committee, successfully organizing 5+ technical events for over 500 attendees.
